Joaquín Rodrigo Concierto The Aranjuez For Guitar Schott Edition with piano score included. Rodrigo composed the Concierto de Aranjuez in 1940 on his return to Spain after the Civil War and the debut performance of the work in Barcelona established its international reputation. Concierto de Aranjuez is a musical reverie on the gardens of Aranjuez's baroque summer palace that only a blind composer, like Rodrigo, could have produced. This work immediately became the most recognizable Spanish work of the twentieth century. Guitar part edited by Angel Romero Content I Allegro con spirito II Adagio III Allegro non-Jewish delivery costs within the UK Delivery costs within the UK Delivery is free on orders over £10.00 within mainland UK. A surcharge of £1.00 will be applied to orders under £10.00 Orders received from the Channel Islands are free of VAT. Shipping outside the UK If not in the UK you contact us by email or phone on +44 207 493 1157 for shipping. We will not take the payment from you until you have confirmed the order. We are here 7 days a week to answer any questions. Alternatively, if you use the secure cash register, we will automatically notify you of the costs. If you don't be satisfied with your goods, you return them for a refund or exchange by notifying us within seven days of delivery. This does not apply to overseas deliveries. Your habit is very important to us and we want to make your purchases as hassle-free as possible. We take care of the processing with great care shipping orders, but if you are not completely satisfied please let us know and we will do our utmost to help you. Why you feel safe shopping with us When you shop with us, our secure server encrypts all your personal information, including name, address and credit card information. We use SagePay, which is the market leader in secure internet transactions. SagePay are used by thousands of other UK transaction security companies. Leading transaction security All transaction data transmitted between our website and the SagePay payment system is encrypted with 128-bit SSL certificates. Unencrypted cardholder data is never passed on and all SagePay messages are signed with MD5 hashing to prevent manipulation. You are completely safe in the knowledge that nothing passed to SagePay can be investigated, used or modified by third parties who are trying to access sensitive information. Internationally recognized encryption and data storage Once on the SagePay system, all sensitive data is protected with the same internationally recognized 256-bit encryption standards used by the U.S. government, among others. The encryption keys are stored on state-of-the-art, tamper proof systems in the same family as those used to secure VeriSign's Global Root certificate, making them all but impossible to extract. The data they hold is extremely secure and is regularly checked by the banks and the banking authorities to ensure that this remains the case. Private network connections to banks SagePay have multiple private connections to the banking network that are completely separate from the Internet and do not exceed publicly accessible networks. Any cardholder information sent to the banks and any authorization message to come back is safe and cannot be tampered with. Employee access No persons within our company or SagePay can decrypt transaction data or cardholder data. Their systems only provide access to our most senior employees and only in extenuating circumstances (such as police card fraud investigations). Your card details are even protected from their own employees, because the systems never display the full card numbers, even on administration screens. Found in: Scores &gt; Rodrigo, Joaquín Joaquín
